

CUBAN POSTAL SERVICE

WASHINGTON, June 23.—First Assistant

Postmaster-General Heath has telegraphed postmasters of New York, Philadelphia, Chicago, Pittsburg and Baltimore re the assignment of one of the most competent clerks in each of these offices for service

expected that by this time Special Agent in Charge, who is in charge of the Cuban Service, and who accompanied the Special Agent in Charge, has completed his arrangements for the handling of the Cuban mails, and the regular line of postal communication will be in working order within a few days. The clerks who will be sent to Cuba will be sent to Cuba.

The experts, specially selected for the war department believes that with the aid of this kind much better results can be obtained with a few clerks than with a large number of untrained men. It is expected toward the end of the week a fast mail will be put in service between Key West camp near Santiago. The large quantities of mail already accumulated at Key West will now be forwarded by the first steamer. The Post Office Department will arrange with the War Department for a catch of mails on all vessels sailing if possible, whenever a Government boat goes west, the accumulated mail matter

to the Government to Establish them at  
Points in the West Indies.

aid be made for warning American fishermen in West Indian waters of the approaching hurricanes. It has been in contemplation of Congress. In the General Deficiency bill, the Appropriations Committee of the House has established a sub-committee to-day, is an item of the bill, establishing the system. The Agriculture department, which has charge of the bureau, is anxious to have the bill go into effect. It is time to charter and stock a steamship.

already been established at Merid and, and the plan arranged provides for of others along the usual routes. The places at which the observers will be stationed are Colon, Barranquilla, Curacao, and Barbados, St. Thomas and Mole. These stations are to be permanent. The Department has arranged with the governments of the countries in which they are established to allow the United States to erect the necessary buildings and maintain them. After Porto Rico has been taken up, St. Thomas will be transferred to Juan, seven miles distant. Mole

NEWPORT, R. I., June 23.—The torpedoes Gwin and Talbot came off the marine station this afternoon and returned to the navy yard to prepare for their trip to Key West. It is now planned for them to start on their trip in the morning. It is understood that the boats are to be assigned to different duty stations on the Cuban coast.

**CUBAN POSTAL SERVICE**  
Express Clerks from the New York and Other  
Offices Are to Handle the Mail.  
WASHINGTON, June 23.—First Assistant Post-

Postmaster-General Heath has telegraphed to Postmasters of New York, Philadelphia, Boston, Chicago, Pittsburg and Baltimore requesting the assignment of one of the most competent clerks in each of these offices for service in Cuba to handle the mail for the army of invasion. It is expected that by this time Special Agent Brewster, who is in charge of the Cuban mail service, and who accompanied the Shafter expedition,

The Post Office Department will attempt to arrange with the War Department for the de-

possible, whenever a Government boat leaves Key West, the accumulated mail matter will be sent by it. Mail should be addressed to soldiers in Cuba very carefully. The address should contain the full name, rank, company and regiment of the addressee, and be directed to Military Station No. 1, New York Post Office, Cuba. There will be other post offices established in Cuba as the army advances and other points are occupied. Orders can be sent to soldiers payable at these offices, or can be purchased by the soldiers there for transmission home.

**HURRICANE SIGNAL STATIONS.**

WASHINGTON, June 23.—An officer of the Weather Bureau went to New York to-night to

The Weather to assist the Government in establishing weather stations at points in the Western and Southern Hemisphere in a sense a war measure and was urged by the Navy Department, so that provisions be made for warning American war vessels. Indian waters of the approach of hurricanes, the Government has been urged to make. In the General Deficiency bill, the Appropriations Committee of the Senate a sub-committee to-day, is an item of \$75,000 for establishing the system. The Agricultural Department, which has charge of the Weather Bureau, is to have the stations through the season to charter and stock a steamship, by July 1. A United States weather signal station as already been established at Merida, Yucatan, and the plan arranged for a number of others along the usual route of hurricanes.

A committee of the Illinois Army and Navy League arrived this morning and went at once to Pleasant Plains, where the First Illinois Regiment is encamped. The committee came to Tampa from Jacksonville, where it spent a couple of days with the Illinois regiments encamped there. The visit to the First Illinois is to ascertain the needs of the regiment. The committee made a thorough inspection of the camp, and was agreeably surprised to find the regiment in so desirable a place and the men enjoying such excellent health.

Tenets are pouring in from all parts of the country for the regiments, both volunteers and regulars. Every train brings a detachment, and the required number of 100 men to each company will be secured by all the regiments within ten days.

and Mrs. Patrick Corcoran of 232 Van Brunt street visited the Eighth avenue armory in Brooklyn yesterday and informed Lieut. McNamara that their husbands had abandoned them to enlist in the Fourteenth Regiment and were now at Chickamauga. Mrs. Winens has three children and Mrs. Corcoran four. Lieut. McNamara said he would communicate with their Captains and see if they could be sent to the two men could not be sent to their wives.

"We have no use for such men in the Fourteenth," said Lieut. McNamara, "but now that we have got them we will do the best we can for those whom they have deserted."

**Navy Yard Notes.**

The smokestacks of the renovated cruiser Chicago have been placed in position.

The Brooklyn Navy Yard authorities have become considerably alarmed over the prevalence of measles among the marines. The first case occurred about a month ago, and since then thirty have been under treatment at the Naval Hospital. There has been no fatal case.

Most women approach the critical period of motherhood for the first time with a sense of dread and foreboding

This matchless "Prescription" will give her exactly the kind of healthy vitality she needs and at the time she needs it most. It will give elastic endurance to the delicate organism involved in motherhood. It will make the coming of baby absolutely free from danger and nearly free from pain.

It will insure the baby's start in life by imparting, through its influence upon the mother, that sturdy infantile vigor which gladdens a mother's heart. It is the only medicine which can be implicitly relied upon for this purpose; and the only remedy expressly designed by an educated, ex-
